### PERSONAL INFORMATION

Seeking a beginner role to enhance and explore my technical knowledge gained at Deen Bandhu Chotu Ram University of Science and Technology in the last years. I was thinking myself as a person who has self-motivated, critical thinking and problem-solving ability, work under high pressure, hard working.

### EDUCATION

- Deen Bandhu Chotu Ram Science and Technology **2021 - 2025**  
Electronics and Communication Engineering
- 12th - Prince Senior Secondary School (CBSE) **2019 - 2020**  
Percentage = 87.4%
- 10th - Prince Senior Secondary School (HBSE) **2017 - 2018**  
Percentage = 84%

### EXPERIENCE

#### FilmyEra - Infinite Scrolling Application

> FilmyEra which is made by using React.js, TailwindCSS and The Movies Database API.

> FilmyEra is an Infinite Scrolling Application in which data was coming from The Movies Database API.

> In FilmyEra Authentication was managed by JWT authentication.

#### Shopping - Ecommerce Application

> Shopping Which is an Ecommerce Application built by using MERN stack, in which frontend part was completed by using React.js and TailwindCSS.

> For Back-end part I have used Node.js, Express.js and MongoDB, Restful API.

> JWT Authentication used in this is Application to secure the user data.

> For payment Gateway I have used Stripe which manages all the payment setup.
